

After the test

You will be asked the following questions BEFORE you are told whether you have passed or failed.

How would a pillion affect your riding?

It would affect: My acceleration (longer to accelerate)
 Braking (longer to stop)
 Cornering (balance)

What might you need to adjust on the bike to carry a pillion?

Headlights
Suspensions
Tyre pressure
Mirrors

Would a pillion make the bike OVERSTEER or UNDERSTEER?

UNDERsteer

Would a pillion make the bike easier or more difficult to make a U turn?

More difficult

What could affect the balance on your bike?

Weight (pillion, cargo)
Uneven road surface
Weather (wind)
Tyre pressure
Suspensions
Unbalanced wheels

What advice would you give to a pillion?

I would ask them to: Dress sensibly
 Wear a helmet and fasten the strap
 Tell me before they sit on or get off the bike
 Sit ASTRIDE the bike facing forwards
 Hold on to me or to the grab-rails
 Keep their feet on the foot pegs at all times
 Stay perpendicular with the bike
 Not to fidget
